EXPERIENCE

Limbitless Solutions, Inc., Orlando, FL

Web Design Student Assistant

Jan. 2023 - Dec. 2023

Web Design Student Associate

Jan. 2024 - Present

- Utilize HTML, CSS, Dart, and JavaScript with fluency to develop company website and applications
- Participate in a weekly professional development cohort to enhance career skills
- Mentor less experienced interns and delegate tasks to ensure maximum efficiency
- Use Figma, Adobe XD, and Blender to digitally design various company projects

Lake Highland Preparatory School, Orlando, FL

Assistant Robotics Coach

Dec. 2023 - Present

- Mentor a group of 25 students on 2 First Tech Challenge high school robotics teams
- Tutor individuals and groups in high-level computer science concepts through interactive presentations and one-on-ones
- Facilitate the successful execution of 6 competition events throughout the season, including some overnight trips

Hynds Productions, LLC

Co-Founder & CTO

May 2018 - Present

- Used Xcode and Swift to design and develop 3 apps for the Apple App Store
- Mastered numerous iOS and iPadOS libraries and frameworks to elevate app ability and performance
- Developed and produced a patented novel concept for a music experience app ("Music Journeys") that aggregates environmental condition data, primarily location, to dynamically select music options in real-time

Burnett Honors College, Orlando, FL

Honors Symposium Team Leader

Aug. 2023 - Dec. 2023

- Led weekly breakout and activity sessions in a more involved TA role for a class of 17 first-year Honors students
- Fostered a welcoming community among students while meeting the goals of the Honors Symposium class
- Assisted students with all aspects of adjusting to college life one-on-one
- Graded exams and weekly assignments to ensure student success in the desired course outcome

Freelance Musician and Composer, Orlando FL

- Collaborated with a local symphony orchestra to debut a film score I composed for my 18-minute original animated short film, "What If Sunsets Could Last Forever?", which I created using Blender over the span of one year
- Use Sibelius and Logic to compose and arrange music for the local music scene
- Perform cello, piano, and bass in various local, national, and international venues
